

Case study

Hollybush Grange

Key facts

Key vendors: GS Brown Construction
Site: GS Brown Construction
Sector: Domestic housing
Client: GS Brown Construction
Contractor: GS Brown Construction

Brief

The client wanted to give the housing project an individual appearance, using a high quality walling product, which was sympathetic to the area and a cost-effective alternative to natural stone.

Solution

Bradstone's Squared Coursed Rubble gave the housing an authentic and distinctive stone appearance.

Built using a variety of different course heights and lengths, the random appearance of Squared Coursed Rubble gave a suitably natural contrast to the rendered finish on adjoining elevations.
