

Case study

Oakham

Bradstone were able to supply a highly attractive product with great customer care to a long term customer

Key facts

Key vendors: Colin Udale

Site: Colin Udale

Sector: Domestic housing

Client: Colin Udale

Contractor:

- Alternative to natural stone
- Great customer service
- Aesthetically pleasing

Brief

The developer was searching for a walling product for his own home, which would blend well with the natural stone of the local area. He also required the product to fit with the unique architecture of the property.

Solution

Bradstone Rough Dressed was specified for the development. Colin Udale, Director of CW Udale Limited, had used Bradstone Cast Stone on numerous projects previously and was aware that the company also offered reconstructed walling products.

He said: "I was shown some images of the Rough Dressed walling and was so impressed at how good it looked that I used it for my own home. I have used Bradstone many times before, so I was confident that I would receive their usual high levels of service."

...the Limestone Buff colour blends perfectly with the natural stone in the area and I regularly receive comments complimenting the appearance of the property.

Colin Udale, Director, CW Udale Limited
