

Case study

Private House, Perth

Key facts

Key vendors:

Site:

Sector: Housing

Client:

Contractor: G Morrison Builder

- Aesthetically pleasing
- High strength, high durability and low porosity
- Traditional style

Fyfestone were able to supply a traditional style block which met the customer's needs

Brief

To provide an aesthetically pleasing masonry walling unit which will meet the aesthetic and structural needs of this type of housing application and to achieve the more traditional stone appearance of reclaimed stone use.

Solution

Fyfestone wet pressed masonry in a 'bagged rubbed' split finish was chosen as the superior aspects of high strength, high density and very low porosity will ensure the whole life performance benefit. The bag rubbing of the mortar joints achieved the desired effect of a reclaimed stone look.
