

Case study

St. Andrews Development

Bradstone was able to supply a cost effective alternative to natural stone without losing the look and feel

Key facts

Key vendors: Headon Developments Limited

Site: Headon Developments Limited

Sector: Private housing

Client: Headon Developments Limited

Contractor:

- Best value
- Alternative to natural product
- Distinctive style

Brief

The client required a readily available and consistent walling product which reproduced the colours and textures of the natural stone found in the area.

Solution

Bradstone's Traditional walling was specified for this small housing development. Like many Bradstone materials, it is also popular in brick and non-stone areas, where it stands out, adding distinction and visual appeal to any development.
