

Case study

Wemyss Bay, Flatted Development

Fyfestone was able to meet the customer's requirements by supplying a high strength and aesthetically pleasing product

Key facts

Key vendors: Europe and Wemyss Estates

Site: Europe and Wemyss Estates

Sector: Housing

Client: Europe and Wemyss Estates

Contractor: W H Kirkwood Ltd

- Aesthetically pleasing
- Structurally sound
- Low porosity

Brief

To provide an aesthetically pleasing masonry walling unit which will meet the aesthetic and structural needs of this type of application. Achieve empathy with red sandstone colour with a clean sharp appearance using a split finished masonry unit.

Solution

Fyfestone masonry with a split face was chosen as the preferred finish for this flatted development in Wemyss Bay. A wet pressed red split product provided empathy with the local red sandstone. Product performance due to closeness to the sea was a factor in choice of product.
