

# Case study

## Wishaw Hospital, Glasgow

Fyfestone were able to provide the best value alternative to red sandstone without losing the finish

### Key facts

**Key vendors:** NHS Trust

**Site:** NHS Trust

**Sector:** Healthcare

**Client:** NHS Trust

**Contractor:** The Robertson Group

- Specifically designed as alternative to red sandstone
- Aesthetically pleasing
- Structurally sound

### Brief

To provide an aesthetically pleasing masonry walling unit which will meet the aesthetic and structural needs of this type of application. Achieve empathy with the local red sandstone colour with a clean sharp appearance using a split finished masonry unit.

### Solution

Fyfestone masonry with a split face was chosen as the preferred finish for this hospital development in Wishaw. The Rust (CB1) colour split product is manufactured to work in planning districts where red sandstone is dominant.
