

SEMINARS

- 1 *Performance considerations when designing with wet-pressed and semi-dry architectural masonry*
- 2 *Structural Facing Blockwork – A Guide To Better Construction*

CPD SEMINARS

OBJECTIVES

- 1 *Helping the specifier to understand the implications of using masonry made from alternative processes*
- 2 *Designing and specifying with confidence using products fit for the application*
- 3 *Learning how to minimise risks of water ingress, staining, efflorescence etc.*

SEMINAR DETAILS

- *Wet-pressed process*
- *Semi-dry process*
- *End product features*
- *Suitability for application*
- *Use with water and aggressive environments*
- *Enviromasonry*
- *Sustainability*
- *'Wholelife' issues*
- *Maintenance of masonry*
- *Common design and construction issues*
- *Good site practice*
- *Environmental issues*

ALSO AVAILABLE

Literature and sample slips on request.
