**AGGREGATE**  
INDUSTRIES

EVERYTHING YOU NEED TO GET THE  
**JOB DONE**

**Asphalt**  
Tools and equipment

At Aggregate Industries we are committed to providing outstanding construction solutions.

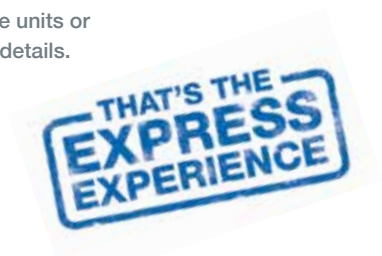

We also believe that understanding, and fulfilling, the varied needs of our customers and clients is paramount to delivering the very best service.

That's why when you visit an Aggregate Industries plant to make a collection, you may also choose from our wide selection of specialist asphalt products.

Whether you need precoated chippings, aggregates, personal protection equipment or simply a new wheelbarrow, shovel or lorry sheet, you will find everything you need to get the job done.

Browse our product brochure for our full collection, or visit our website to read more about the services we offer.

Most of these products can be bought on site in single units or delivered to you in bulk. Please contact us for further details.

Line products	18-19
Lorry sheets	20-21
Gas	22-23
Personal protection equipment	24-25
Precoated chippings	26-27

# The experience explained

Our asphalt products have always been of the highest quality, but at Aggregate Industries we want to go further.

We believe that listening to you, our customer, and understanding what you would like from your local asphalt provider, is as important as the quality of the product you receive from us. The Express Experience has been developed in response to customer research and is currently based on the following nine factors:

## 30-minute turnaround time guaranteed\*

We understand that time is money and you don't want to be stuck waiting in queues. That's why, for a single drop of standard product, we guarantee to turn you around in no more than 30 minutes.

## Tip off service for trench arisings

Our sites will dispose of your trench arisings, meaning you can save time and hassle by using us as a one stop solution for surfacing projects. To arrange your tip off, liaise with your business manager before arrival to agree terms and conditions.

## Recycled aggregate products available

We are committed to ensuring that our products have as little impact on the environment as possible. That's why many of our products contain recycled material and we can now provide you with recycled sand and type 1 sub base aggregate.

## Dedicated customer service team with account management

We know that contact with our customers is paramount, so we have a dedicated customer service team and a business manager will personally deal with your product and pricing requirements.

## Innovation and training

We are constantly researching ways to make our products and services more sustainable and beneficial to you. As part of our development programme, we also offer regular training and workshops on subjects such as health and safety, and how to handle our products to get the best results.

## Onsite refreshments and welfare facilities

We want to make your visit to our sites as pleasant as possible. So, why not take advantage of the onsite refreshment and toilet facilities that are now available at all of our sites?

## Extended opening times

We understand that having access to materials when you need them is vital to your business. Our sites now offer extended opening times to fit around your requirements and can open out of normal business hours† too.

## Tools and equipment

Every site offers a full range of tools and equipment for your projects. This catalogue will help you find the products you need, whether wheelbarrows and rakes or cold joint paint.

## Price protection by arrangement

Through talking to you and understanding your requirements from your asphalt supplier, your dedicated Express Asphalt account manager can help find the best solution for the supply of asphalt for your business.

### Terms and conditions:

All products and services shown in this brochure are subject to Aggregate Industries UK Ltd terms and conditions. Subject to availability. We reserve the right to change the offer without notice. \*30 minute guarantee applies to all single loads of standard products. Claims need to be made within four weeks of the occurrence. †Claim forms available at [www.express-asphalt.com](http://www.express-asphalt.com) or via your business manager. †Subject to prior agreement.

## Emulsions

## Emulsions

We offer a range of emulsions with varied bitumen content to suit your needs.

Material description	PD 6691 ref	Size (mm)	Nominal layer thickness (mm)	Minimum thickness at any point (mm)
HRA regulating and binder 50/14	HRA 50/14 reg/ bin	14	35-65	30
HRA surface course type F 0/2	HRA 0/2 F surf	2	25	20
HRA surface course	HRA 30/14 surf	14	40	35

Nominal and minimum compacted layer thickness for SMA surface course mixtures conforming to BS EN 13108-5				
Material description	PD 6691 ref	Size (mm)	Nominal layer thickness (mm)	Minimum thickness at any point (mm)
SMA 6	SMA 6 surf	6	20-40	15
SMA 10	SMA 10 surf	10	25-50	20
SMA 14	SMA 14 surf	14	35-50	30

## Metric conversions

Approximate common equivalents			
Inch	0.25 m / 25 mm	Square foot	0.09 m <sup>2</sup> / 9 cm <sup>2</sup>
Foot	0.3 m / 30mm	Square yard	0.8 m <sup>2</sup> / 80 cm <sup>2</sup>
Yard	0.9 m / 90mm	Metre squared	11 ft <sup>2</sup> / 1.2 yd <sup>2</sup>
Metre	3.3 ft / 1.1 yd	Millimetre	0.04 in
Square inch	6.5 cm <sup>2</sup>	Centimetre	0.4 in
